

Dear Parents,

I hope you all are staying home, washing your hands , using sanitizer....and spending lots of time with your loved ones, a time that each one of us has always longed for.

In this time of crisis we also pray for the safety of one and all.

During this phase we understand that, as adults ,we can keep ourselves occupied in various chores, but it can be very challenging for the children. It can lead to frustration & boredom after a certain period of time. Hence we have worked out a schedule for our children. We have prepared a curriculum for all classes, so that they are not only occupied with their studies but also don't suffer from any backlog in school.

Parents kindly keep checking your school app and follow the whatsapp groups created by the teachers to assist you.

We are also conducting 'Online Classes' for standard 12th to help them and guide them in every possible way.

I urge every Parent to stand by us and support this initiative taken up by the school for the benefit of our children and request you as responsible 'World Citizens' to strictly abide by the rules and support the lockdown.

We will come out of this Stronger & Braver.

Stay Home, Stay Safe!

Regards,

Nisha Jaiswal
